

What's up , everybody , it is Friday , December 10th , and you are listening to the Pat McAfee Show 2.0 . Pat is in L.A. today ahead of Friday Night Smackdown , but he is joined by A.J. Hawk in studio Michael Lombardi and coach JB . They go through the entire week 14 NFL slate . It's a good one . Let's get into it . Pat McAfee He is out of L.A. after signing a gigantic panda deal Friday night Smackdown giving hotel . He will be joining us shortly . I am here . I'm very excited to be in Indianapolis here with the boys . The studio feels very sweaty again . Very warm for some reason . Maybe you want to get this nice gear in these nice clothes . What is Pat said ? I'm wearing my Peyton Manning jersey , which I will take . That is a compliment . That dude is great on TV . He is a Hall of Fame quarterback , so thank you , Pat . I appreciate that . All the boys are here . Hey , without being a cheese dick or being corny , like , I'm very excited to be here . Dead serious , I was driving my dad . Yes , it's great to see you guys . I get to see it on my computer . It's great to see you in person . So I appreciate you guys have me . Let me come in and , you know , kind of join in on your absolute mess . I'm not going to talk about the the desk today . I told Diggs before the show . This is stupid , gets bigger every day . Whatever , we will move on . But Diggs is here . Boston Connor , Ty Schmidt , Nick Maroto , Zito levees back there . Oh , go . Can we cut the go ? Go is here all the boys in the back ? Billy Gurdy story for I missed everybody . I walked in there about 40 people here in the office today . Obviously spray spread it out and did everything right . Apropos of it , of course , of course . Always know just the normal amount of people here . But before , before we go any farther , I need to bring in the man of the hour , the man of the week , Mr. Pat McAfee . He's out in L.A. somewhere about this . Sir , how are you ? What's up , dude ? Quick question , thank you . Lots of questions . More so statement , which happens a lot in this show . I think everybody kind of has come to expect that now . Quick question for you , A.J. As you sweat all over the place , I said , you look like Peyton because I think I've seen him wear that exact combo . And I think you look absolutely incredible , impeccable , so professional that people are going to be wondering why a man and a tank top gets a dress like this and talk to a man like you . Now , let's talk about the decisions you've already made on the show . Let off an interesting fashion . You deal at the beach , drop what you spent , you put a candle where you can't see it on that . Yeah , that is a fucking nightmare waiting to happen . We've all seen through o'clock . I'm trying to get the ambiance . I'm trying to make it feel like homey and here make it , you know , and you already have the Christmas you can do if you have surfing Santa . Oh , what's up shocking about Santa ? Hey , Pat , by the way , that candle almost lit the fire . Yeah , we had to . We had to move that candle like two inches up . Yeah , no shit . It's shit . I mean , that's right in front of what , four thousand five thousand wide . Ten thousand right ? I mean , it's bad is bears . All right . Hey , did my super boots hit last night , guys ? There's no answer . So , OK , I'll let you get to OK , so I'm sure you guys were worried . I sent a text to Ty Schmidt in the second quarter . I believe . What ? What would the Steelers down when said I believe it was twenty three nothing . I said lot of game to play Ty , a lot of game to play . Don't worry about the boys . And you know what ? They made a hell of a game out . That was a very fun game to watch . It went from being a terrible game to maybe one of the most exciting games of the year , at least for me watching last night . What did you think of the game , Pat ? Yeah , I agree completely , A.J. And as I saw them , just , you know , a buzz saw show up in a buzz kill moment happens for all of us , with A.J. Hawk guiding the super boost for the first time after an impeccable year of picking against the spread with so much confidence , he says . Steelers moneyline . I landed in L.A. the game had already started . I sit down , it's nine nothing already or something like that . I'm like , What the fuck's going on ? Then Kirk Cousins is slinging it . Dalvin Cook is running all over the place . I'm like , I thought that guy's shoulder was bad . What the fuck's going on ? And then I put out a tweet . I go , Excuse me at official A.J. Hawk the hell's going on and steals your pick . Did you just pick the Steelers for the supers because you don't like the Vikings ? Why is that ? Why ? Because you're you're a Packers fan and the Packers legend . You don't like the Vikings , because what bet Brett Favre did in all the years of division ? Or did you think that the Steelers are going to do a lot more of what they did in the fucking fourth quarter , the entire game , if they felt like something happened ? Obviously , a switch had to be flipped on the offensive side of the ball . Ben started making better throws . It felt like he was getting more aggressive . Things were happening . Most yeah , move . Move on balls here . He's going to make play . Chase Claypool is getting it on the shins from everybody , and I think he's pissed off about the whole thing as well , somehow . So what a night that is a terrible evening for the Pittsburgh Steelers fans . There's a lot that is trying to drive them all apart . But more importantly , you gave your best effort , A.J. and what I did , I did . And if I . We'll see what happens . I'm sure we'll go around the room right to see who gets to pick the super boost each week . Well , see , that's something I'm I have to think , but I believe me . I got a forty five hour flight out . Every time I fly out here , it feels like the winds and the chop must get stronger . I was sitting up in the sky what felt like eight hours yesterday , trying to catch up with everybody's kind words yesterday . I am so incredibly thankful for how nice everybody has been , how cool everybody has been , and also all the incredibly tiny things you've said about all the boys . A.J. Hawk got a lot of compliments yesterday . I got a lot of compliments on the old jaw from Ohio . You know , yesterday was a cool day . I can't thank everybody enough that I still have a hundred and seventy text messages that I've not answered yet . So I mean , I don't know if there's a flight long enough for me to get back to everybody who apparently has my number right . But I appreciate everybody . Everybody's the best . And yesterday was really cool . I think the video you did everything was super special . I a lot of people reached out to me to try to tell you , congratulations and boys and everything . So yeah , it's an awesome thing that that you have done . And and now that you have announced this week , yeah , exactly . But I mean , it was started with you . It's your name , your thing , and we're along for the ride and we appreciate what you're doing . So the best thing about it is this is fun , man . How about you guys ? But this is what your guys job is , right ? That's right . This is my job . This is this is technically my profession . I texted you that day , like , this is my profession , which is amazing . I had to sign up for something . You had to sign up for something like real pro . And they said , Occupation . Oh yeah , my , you know , like , I just had to write , You were my boss , I said , and I was like , This is a great day , you know , and you have to you got to feel stuff out for your kids and a doctor or whatever , says place of employment . I'm like , Oh my God , I texted back right away , This is great day , man . I'm so happy I get to do that . I want to go back to that game . Quick , Pat , I'm going to get to the Cuban cowboy because his heads down . He's been in mourning . I'm not sure how he . Feels about the Chase Claypool situation , where people feel like they could have had one more play to run , but I want to jump back real quick . The Freiermuth last play . First off , Ben Roethlisberger threaded the needle water throw dart . Harrison Smith deserves more credit and that's I understand all I do here is pump up Harrison Smith , but I love what this guy does . If you look at this picture , he's about to have pinpoint accuracy . Freiermuth has two hands on that ball , probably real . And that sucker in Harrison Smith punches directly on that ball and causes him to drop it . It's a PB you . It's not a drop . He knocked that thing out of his hands . So Harrison Smith to play the game because I feel like we all know that if Pittsburgh scores dead , whatever momentum they're probably getting the two point conversion , then it's a whole new ballgame covered cowboy might be a little happy today . How do you feel about the game ? I loved it . They fought , and I'll ask you this to start . They for some reason cannot play football worth a shit . The first two and a half quarters of every single game , and I don't know if it's , you know , they say , like , we have to establish the run , we have to do this . We practice this all week , even though it's not working at fucking at all . We're going to do it because this is what we worked on all week long and then they're like , Hey , we're down . So maybe we actually just like , let Ben be bad and do what he still can do . I don't think Ben's a problem at all . I thought we talked about yesterday 30 second ranked rush defense

in the league right now , like that was a lot of injuries as well . I know Nick Nick went through all the interest they have had , so a lot of injuries . But hey , everybody's hurt right now , but can tons of injuries ? And I don't think Ben , earlier in his career could cover up for the O-line , letting people come untouched like he can't . He can't cover up for that stuff anymore . So I think some of those flaws are being seen . But like . I've talked about it before this season , like doing some of the stuff they do , like lighting up to hurry up , rushing yards , getting a pick and then going to celebrate in the end zone when you when you're down twenty two point , that one was a little bit weird . Yeah , I don't know . Joe and Troy mentioned it , but that one felt kind of forced and felt kind of awkward . Me , the claypool stuff . I mean , this is the second year . What do you think ? OK , so claypool big fourth and one fourth and two conversion on the slant catches great ball celebrates kind of gives us a little first down marker as what the center was run over to take the ball to get it spotted . The ball gets knocked out . Looks like backyard football . How the refs trying to find the ball . They probably would have had one more play right after at least . Yeah , and like he he he got benched last night because he got the taunting like . And I'm surprised he doesn't get it more . He does it all the fucking time and he got bench and then he still does that like you have to . You have to think about the moment before you think about yourself , and I don't know how often he does , like he's so fucking talented , but he does that shit all the time and it's Week 13 , so its obligation for me to hate a fucking Steelers wide receiver at this point in season . And I guess it's going to be him this season . Does the fucking tick tock ? Oh , this is probably this is probably all fucking Jews fault , to be honest . Oh , I don't know . I mean , I like I love Ben . I love that they fought . They do . I just wish they would do it earlier in the game . I don't know . I mean , if they found a way , though , if they found a way to tie that game up and potentially win , that's a franchise win for the Pittsburgh Steelers . And you can't afford that . Yeah , for me , it's the super boost to everyone's life could have been different if the Steelers just could have found a way to win that game , right ? So Chase Claypool , I would like to talk about just grateful because his press conference after the game and I think we know Chase a little bit , right ? I think at this point we got him on a couple of times and he's very young and he's very talented and he is taking it on the shins , justifiably so for the optics of the entire thing . But if you hear what he was saying , he was saying , Hey , I got the ball in the hash . All right , the ref , the rest fat ass wasn't there . Yeah , what is basically what ? He said , the rest of ass went there . Yet I think he thought he had time , a little bit of time to do that and still be able to hand the ball off and then line up in the formation that he was at . So I understand where he is coming from in that particular case , but optically that can't fucking happen . Like , you know , like that is that is just something that can't happen . So I think the ball exchange between he and Turner , I believe , was trade . Yeah , it was slave trade , was it ? What the fuck are you doing ? Like which , by the way , I think everybody had at this point has appreciated him doing that and everything like that . But the ball ended up on the ground . Never good because nobody could scoop no rest and scoop it squared up . You know , I mean , I can't go right , but that's another play . It's just optically it looks terrible , didn't you ? I instantly thought of how they praised Larry Fitzgerald when he would grab the ball and sprinted over to the ref in situations like that . That's what I started to think about when I saw the Chase Claypool situation play out . They taught that I assume at packers it felt like just as somebody that watch practice , you know , and obviously we mentioned Payton being like , that was just like a part of it , like , Hey , if we're on a two minute right now , this ball ends up in this ref's hands right next to the hatchet . It's being spotted like this . You even run with the ref , almost like you don't even trust them to potentially take the handoff and run with it . Like , put your hand on his back and you bring him with you almost . So here we go . Here you go . If I can put it down right here that there started to be a trend where people just started putting the ball down , but then the D linemen would just kick it , which , by the way , smart you should do . Minnesota did a good job . Did you notice Minnesota did a good job of holding guys down , but not long enough to get a penalty , and they would systematically kind of bump into whoever the receiver was trying to ? Yeah , it was awesome . They would just give them a little bump like , I am just walking here and you ran into me like they . They took off a few seconds doing those little gamesmanship tricks . I wish they would have done that last week . Yeah , but then they burned , Harrison Smith said . This ain't happening again . No , I'm fucking put my right hand through this guy's hand ball . That was an unfair , fucking believable . About and moose and moose is going to feel terrible , right ? I think if we know anything about Friermuth is a young , tight end , he's going to feel terrible . I think that is just a hell of a play on the other side . I don't think Moose should be , you know , distract distraught about himself . I don't know how he was . He was supposed to bring that in because the second he got those two hands on the ball , that punches come and you can see it . Harrison Smith punches six inches away right there , and he makes contact and he hits the ball directly in three defenders . What is the ball ? What an almost catch right there . Yeah , that was good on good . And then Ben's all the way back to being Ben , by the way , because they asked him about , they asked Ben about claypool and maybe Ben like teaching him or something like that . And Ben's like , That's not my fucking job . That's class . Ben Barrett's off audio class again . Yeah . Hey , Nick . So you've been kind of quiet back there . What are your thoughts on the game last night ? What were your emotions going through that game from first half to second half ? Just kind of taking it all in right there what you guys were going through , and I think you pretty much hit the nail on the head and a lot of points echoing the sentiment of Diggs there with what Ben said after the game about Claypool . But that's not on him . That's on Tom . And it's kind of a cheapskate way out . It's kind of a it's kind of a pass the buck type of thing . But that's always been Ben . What got me was in the game at one point is either in the late third quarter or the fourth quarter , Pershore Breeland . I believe it was one of the cornerbacks . The Vikings took a penalty and it was a dumb penalty . And Anthony Barr ran right up to all , got in his face , pushed the basis of What the fuck are you doing through my field ? That's not something you see the Steelers doing to each other now . We mentioned Trey Turner running up . But I think he was more trying to even just get the ball and not confront Chase . Like it just seems like there's a whole lack of accountability on that team . And I don't know how you fix that could happen for some time . Hey , listen , if you're watching along from the outside looking in , you got to think to yourself , and this is all been beautifully illustrated on ESPN all morning . I've been watching it here . I've been up . I've been up so long , you know , so I've been up watching this whole thing . Remember , Antonio Brown went live in a locker room ? Yeah . We're going to beat the Suns . That was the start . Was that the start of all this , you think ? Well , that's what that's the story . That's the narrative in there . What is missed is that Tomlin has never had a losing season with any of that right in the AFC North with any of that stuff . And maybe that just happens . And when you lose , all these things get brought to light a lot more . But I mean , Tomlin is in a very interesting position . He said , we're going to evaluate who we're going to do it with going forward . What if he just cuts everybody up ? Oh , that's fine . I mean , keep keep Minkah . Keep calm , keep T.J fuckin wrestling , make a fly and make it can make . I was telling the boys earlier before we started the show make it made multiple touchdown saving tackles . I feel like in the open field against Dalvin Cook that are very , very difficult tackles like make a save that many times last night . How come Dalvin looked better than , yeah , what ? He is so fast , isn't he ? If he caught a ball one third down with a water route , and I think they even had like their dime personnel and that was a safety cover . No , that's so tough to cover the running back out of the backfield like that when he can run that well and just a nice ball by Kirk to in a huge , huge margin . So when you talk about runs on Kirk , I mean , there was a lot of stats coming out of the fourth quarter when Ben Roethlisberger , the Steelers , were getting hot . Everybody thought Kirk was going to lose that game . You know this guy ? Three and seventy five and probably whatever the case was , but he made some big time plays last

night, some big throws. I mean, going going to 16 with two touch now. He obviously had two picks. Can't have that. That's a couple of ugly ones. Man, yeah, that's that. One was the last one he threw where a guy could have taken it all the way to the house. I was I was a pick six on the right side, Weatherspoon on a pound, the cement and his cleats doing done. And then he kind of he fell. People come from behind him and kind of stop that one right? There is like, Oh, this is a game now. Here we go. Kirk's giving the ball away, but it was just a little while. It was the slant that that the receiver stopped running. It wasn't even really aren't correct. That's that. And Todd Haley came out today, or maybe his last night in tweeted like these that the wide receivers are the problem. It's not bad like Donte, who I love. He did kind of cut his his slant off short there, which caused the interception. And it's a mess. Well, that Dante touchdown he caught though, to get him going. Felt was great. Remember, in the end is up to like that was beautiful. Hey, how about the chance of getting out of bounds? Yeah, that was another huge play. You're right. I didn't think he was thinking out of bounds. I mean, he had to beat Pat Ryan. I think you have to beat Pat. Yeah. And then he had to get around and back out and he can't run out of bounds going backwards. So we actually turned into like one square off the field. It was there was a lot going on there, very quick. That super fucking dead. Oh no, it's not great play to us. That's a problem with all these guys. They they make incredible plays and then but two plays later, they'll make all they live by the highlights you're saying to me, I don't know. I just consistency or I don't know. It seems like it was either the series was really, really bad or really, really good. Yeah. Well, that's kind of how the Steelers offense was. Well, and that's like the Vikings as a whole. Like the first half, they look like one of the best teams in the NFL. Then the second half they look like a team that's lost like eight games on the last play of the game, which they have played. Justin Jefferson's a guy who's reliable, who's I think Matt Cassel was tweeting the last. I mean, it was hard to see tweets I'm going to. I am so sorry to whoever. I apologize. I was trying to respond to as many it. Matt Cassel Orlovsky. It was one of those quarterbacks on the internet. They were like, Hey, Justin Jefferson is wide open on crossing routes the entire time. Right now, he's just wide open. And I don't know if you know, Kirk didn't see him a couple different times, but man, when he gets the ball, it is electrifying. He is a fucking guy and he always has separation. It feels like, yeah, that happens when you know he's the guy. How about we haven't even really mentioned Dalvin Cook running all over the Steelers defense, and I don't know if you have some of those screengrabs. Look at this for a man. Look at Fox. This is a show pops this thing right up now for the serious listeners. We got a screenshot, I believe, from gobies guy Warren Sharp that says, like, how does this happen? And it is Dalvin Cook the whole he has looks like it's about five yards wide and there is nobody really in front of him. There's a safety that looks like he's running to two that looks like I want. Yeah, he's going to get it, but the safety is going to cover, which I can't take too much out of screenshots because he has to check that first. I understand Dalvin Cook is running right down his throat, but can you imagine trying to make that tackle right there? What if you're one of those safeties? Good luck. Make a mistake. I know that's what I'm saying. Make a save. This team many times like that looks almost impossible. We don't think about Kirk. Maybe we should have kept this one option. Yeah, you're right. But who would you rather have run the ball, Kirk or Dalvin Cook? Congrats to Dalvin Cook. Congrats on the offensive line. I mean, big answer after losing in the fucking lions, like, you know, this was a big time, short week game for the Minnesota Vikings, and they bolted the Steelers, which is, I think, goes into all of the bigger problems the celebrating on the first down, all the celebrating on the first down. For Town, with thirty six seconds left with no timeouts. The the miscommunication coming from the front end of the back. I mean, there's just there's so much happening in Pittsburgh, do you just I think all the answers go, that ain't what we're all about down here. Good for the Vikings Typekit. This game was a perfect depiction of this NFL season. Pittsburgh beats the Ravens last week. Vikings lose the Lions The first half Vikings dominated the second half. The Steelers come back like it's that's been the season for every team this year. Not every team, but a lot of teams this year, A.J. But though I know you probably brought that up for a reason, like the run defense, like what the fuck is? Well, so I know they have a bunch of injuries, so they do the injuries. Not a great photo by Oh yeah, oh, linemen are getting three releases on the linebackers. Yeah. And so when you have, especially when you have your plug in new D linemen in two, you can talk about run fits or you can talk about, Oh, this guy may not be as good as the starter, but it doesn't matter. He's still a good player, but it's more of the continuity. It's like, Oh, lineman, you know, when they play together. If you have a group of O-line that they don't have any injuries and they play together all year, they almost have like a sixth sense. They know they don't have to talk. They can kind of give a little head to. They know exactly what the guys are doing next to the same thing happens on defense. Those linebackers have to trust that the D linemen hate this deal and they get this D-line into the big gap over here. I know they're going to stay in those guys. They're not going to get pushed out of that. I have to play into my gaps. But then all of a sudden you have these new guys come in. Maybe there's some miscommunication. I'm not sure who gets blasted out there again. You try to make up for it and then guess what linebackers trying to make up for the D-line and out of that gap, then linebackers out of his gap, then the safeties have to try to make up for that. And everyone's just run around like a chicken with their head cut off. As the coaches like to say, although chain reaction fuckery, it sounds like when you look at this year, when you look at this, you think this is somebody peaking or do you think this is just like Will like will? Well, I mean, I did someone just get cave down on that left edge or that's what happens, Ray J. Right onto the holding? And then if they just pick one way, then the offensive line like seal later, right? Yeah, I kind of. Yeah, it's hard to tell exactly from this angle, but I mean, look how wide your end is out there that he is said to be a draw, right? Yeah, I would like to see exactly what this third in a hundred. Yeah, what was it? Well, they picked it up. Yes. No answer. So there are no answers on that, A.J. They stink. I mean, that's the third string nose tackle in the back up. And like, they're going to get beat because their backups for a reason. We talked about it yesterday and and you know, you can put a positive spin on it. That was very nice of you to do, but there's just a reason that they're that they're slotted in that part of the team and that roster, like they just they're not meant to be in the center is going to believe in next man up. What the fuck? Oh, no, what are we even doing out here? Some of the greatest of all time have been backups. You ever heard the story of what we fucking if this team ain't that deep? Unfortunately, OK, and I felt bad for Norge last night because he hasn't seen a hole like that since Alabama, and he had to just be gritting his teeth over watching Dalvin Cook running wild like that. I love not like him, even when you got to like him even more and you could see the when he he caught that touchdown on bar, you get something kind of kind of pats boys a guy make, you know, it's tough to come out to cover body like in bars like, yeah, what am I supposed to do here, man? He had pretty good coverage. It was a great throw and a great route, though there's nothing you can really do. When George was on the show, he had such a good personality. Yeah, you know, and when we announced he was coming on the show, a lot of people had potentially interacted with him before. We can't wait to see how this goes. Can't wait to see how this goes because he has like his own personality. I fucking love him. Like I, I think the city of Pittsburgh was expecting Nigel to be a Steeler before the draft happened, and then whenever it was like kind of lining up for it to happen right or nausea or got nausea. Our guy, he is your guy, and I think they're going to rebuild around him. If they move on from Ben, I think it's going to be like, Hey, we got a great running back. Let's make what's figure out how we optimize this dude as much as possible. I think they got a dude

there . Well , and you have Freiermuth at the tight end position who's absolutely going to be a stud for a while . Claypool Claypool have plenty of weapons . They really do . Claypool , if he figures it out , that guy makes plays . Now , I didn't love yesterday , Steve Smith saying that Claypool doesn't run every fucking route . I just assumed everybody's doing that . That's especially at that level , you know , I guess on a couple different likely , I would like to ask Steve did say that he can eventually like it will have the ability to run every route , but it's there's different body types . So look at claypool . He is such a big body dude . Like , do you need him to run every round ? Well , wasn't that the knock on D.K. Metcalf to like , but like , look at him , like he's doing way more than just running footage of him coming up ? Used to show some of the routes that he would run , and he did not look good . But now you're right , he's a completely different guy . I feel like , Yeah . So yeah , it can happen . You're right . Steve Smith also said , like they need a veteran wide receiver like that . That shit was Chase Claypool doesn't happen if there is a guy in there that's telling them , Okay , when we get like a Larry Fitzgerald , for instance , when you get down there , sprint to the fucking ref and spot the ball because we don't have time and you don't have to tell him that's the thing . Like when you have guys like that , they don't have to go backward . That's always a big , condescending thing . When I first got the league , the vets kid , kid , kid . Let me tell you that I would instantly just shut down and go , I get your dad to . If you start out like that , like , OK , you've signed a piece of paper for 50 million fucking dollars and that's a kid . Let me tell you what you need to do or make . Okay , bud , thank you very much . I'll sit there and be polite and then just go about my my life . But I saw it happen where , OK , so like in the receiver room , I was in Green Bay , and I hate to always , like , bring it back all back when I played . But when you watch it happen , like Donald Driver was there when I when I got there , Donald drivers there . Legend Greg Jennings is in my draft class , so Dre gets to watch Donald learn from him . Jordy Nelson gets drafted shortly after all these guys and they all I take it on like they don't mean to . They don't have to . But there's good dudes to do the right thing . So all the young guys see it , so everybody gets drafted behind him . They're like , Yeah , this is what we do . Davante Adams comes in now . Devonte is that guy . So it's it's very , very valuable , especially that southern position that happened to the Colts as well . And I don't always talk about like back in my day , you know , when we're speaking or , you know , you know what a noise . The reason I say that is because it annoys me when people will assume everybody knows where they went to college and they're on TV and they're like , Oh , well , you know , you know how I'm a I'm a homer , though . I'm like , I don't . What do you ? What do you mean your homework ? Well , you know , I went to Alcorn State and I'm talking about Alcorn State . Well , no , you're not . Don't ever assume anyone knows where you're from and what you did just for . Just clarify some things . I didn't know that Steve went to Utah . Yeah . So I'm not talking about Steve Smith . I'm talking . I watch people on TV all the time do this . I'm like , Wait , I have to wait and see , OK , five minutes later , I'm like , Oh , they went to school there . That's why they're saying that . Yeah . All right . Well , I'm just the Colts , by the way , from my perspective . Marvin Harrison , Reggie Wayne , Reggie Wayne to t y . I think T y now to Pittman is happening . You know , like that's I think that's a pretty common thing in a lot of places . And it's not just the wide receiver room , although we're talking about the wide receiver , it's coming for good teams , for good teams . It's common . Yeah , in every room . I think you're right . I think it's every room . If not , you have to have like a really , really good coach , like a really , really good coach right in that room . I honestly believe that . I think you have to have a good vet in every room . And if you have a bad vet , by the way , that can also fuck you over . I think you know what I mean . Oh yeah , that can really cause issues if you have a bad bet that's going against the coaches . But why are we doing this ? Why are we ? Why are we running ? You know , two minute on Thursday and just always complaining that can have a huge impact on the young guys , while just like the positive stuff was like working hard and making the right decisions can like , you know , influence the younger guys also having like , Yeah , this is bullshit , just kind of like creep into the younger guys . That's not great either , unless , you know , even if it's right , like , even if it's true , it's like that can also potentially affect an entire culture . Yeah , I'm sure you've had coaches in your time . I know I did . Where players like me . Are you kidding me ? What are we doing here ? And even if you could tell the coach completely disagrees with what the head coach is doing , a good coach is getting bad , guys . I get it . I understand where you're coming from . I get it . But this is what we're doing . You got to listen to the head man . There's a bigger plan in place and you got to just go with it like instead of bad coaches . But I get him and his coach . You know , the head man , he's he's pretty volatile . He's pretty terrible . So he's go ahead and go through the motions and get it done . Hey , we're on your side here . Honestly , the whole time , so a lot of the worst you guys do , the better we look in our battles against him as well . But there is , you know , whenever I think the first time I heard Chuck do the blinders speech , you know , it was it was after practice . It might have been after A.Q. Shipley was traded . So AQ was he like he started for us . We did good . We did good . We beat Cleveland . I think we ran the ball well . He maybe he came in from an injury , whatever he can . Whenever he was playing , he was doing good . We were doing good . But there was a lot of business that was potentially happening at that position , though like and we all understood that . So then the next week , AQ wasn't even dress it right . So he wasn't even dressed . He was a healthy scratch or whatever . And then he was . Then he was up and then he played and things would go good . And then he was down and out , and AQ was liked by everybody like , so it was like the fuck's going on . And then he was traded . And I think it was the first time I heard Chuck just be like trust . We gotta trust . We just got to trust . The decisions are being made . Just put the blinders on or whatever . And it was the first time I heard that . You know , I think like the coach even be like , I get a good sense that everybody here thinks that there's some fuckery going on right now . I'd like to let everybody know that we just have to get a trust because normally it is the assistant coaches that do that type of thing where it's like , Listen , I understand why you potentially hate everything you're doing , but now's not the time for the good of the whole or whatever . You know , it's just those situations happen on a regular basis , regular basis . I think now that the world's opening back up , so many new thrills are on the horizon , OK ? And whether you've been in a relationship for years or just getting started , we're excited to get back out there and meet new people all year when the moment comes . It's not . Oh , here we go . Roman Ready Your viewers always came back and had one of the greatest come-from-

behind victories ever in the NFL . We're unable to make that happen . Harrison Smith punches the ball out from Freiermuth at the very end to end it . Great game , but let's not wait any longer , Pat . Let's bring on the one and only everyone knows him . He joins us on Fridays . Ladies and gentlemen , please welcome coach JB . Yeah , well , you guys hear me . Oh yeah , we've got you , JB . How's it going , man ? Would you talk about that game ? How's our game ? How that game hit you last night ? Man , it was crazy hours . I fell asleep at half drunk and then I woke up and it was fucking a ball game . So I was like , Shit , what happened here ? Then woke up , or it took some , you know , fountain of youth or what ? What is that fountain of youth ? You guys don't , you know , it's probably some moisturizer a dime in the game , man . The guy's got to catch the fucking ball . He was scared of the little fucking hoe in church . Oh man , you got to squeeze the ball , man . That fucking was a that's a touchdown . NFL kids , you got to make the catch . You want to be different , everyone . It's easy to fucking drop it . I mean , I get you . But how about the throw from Ben ? Like , Ben made some throws Ben and still has some juice left in that arm , doesn't it ? I can die in peace right there , right there . You got to touch the body a chance right now like he tried . Did you watch it , Jimmy ? He's playing against NFL guys . Do you want to play in the NFL ? Be different . He's playing against a very different guy . That's something I can . He's playing against a white dude in the secondary . I'm not a fucker , ain't doing nothing . He ain't busted . No , I know he's been in the pro ball a couple of times , but fuck who is this girl that guy might be scared of . Twenty three . Line them up right there to take his head off a you know , that's that's A.J. You know , if you're an offensive guy , you teach that right there . Squeeze Tuck Fetal . He treats fetal position right now . Fetal position . Hey , dog , it's fucking easy , right ? That's an easy catch . I don't know if it's an easy catch with Harrison Smith accuracy like Conor McGregor in his prime , but he's got to catch the ball . Yeah . Coach J.B. , Coach J.B. What about they have another play ? Maybe , you know , Chase Claypool . The ball ends up on the ground . He's got a fuckin shit . Bird man was the epitome of a fucking shit bird man . Like perfect forever . Why didn't you say you know what a shit bird is gone forever . Gone forever . And then he blames the sinner , blames the sinner and on the podium for fucking slapping the ball out of his hand . What do you say ? There's a there's a video video out there . Someone just sent me . He's he's he's like , Well , the reason we lost the game is because I got the ball knocked out of my hand . I'm like , You got to be shitting me . You're going to deflect that to the center who knocked the ball out to line your ass up and get the ball to the ref . Like what a fucking enabled can't find . So , J.B. , take us through exactly what Chase Claypool should have done . Once he made that catch to convert that big fourth down , you know what ? He said it did . Have you guys watch Larry Fitzgerald when he used to hand the ball and run to the hash and hand the ball ? The ref like high and tight , like boom , hand it to the ref's hand because the refs . They're not great fucking . I don't think that refs are like Pat McAfee Athletic . All right . Didn't punt the ball , kicked the ball . They didn't snap the ball . They didn't fucking play in the league mostly . They kind of fumbled the ball . They're going to chase the ball . They're going to lose the ball and the ball right to his chest , just like you're coaching the kids in practice to hold the ball hindsight and the ball of the ref every single snap and get used to it . And further proof what's called a chase claypool chase . I heard that clip that you were talking about the chase . Claypool said that he thought he was near the hash mark . He thought he had time for the big ref to get him there , and he thought I could give him the ball . And then the reason why I'd end up being a problem , actually , because the ball was barely out of his hands . Optically , it looks terrible . He should not have said any of that or done any of that . How was Tomlin deal with that ? You think at this point ? He said , Lou , we're going to have next . What does that mean ? Yeah , I posted a tweet , a half tape . I'm like , Did the Steelers just quit on Tomlin ? Because I find that hard to believe . I'm like , No way , right ? Because the way they were playing , like , there's no way , A.J. , if you watch that game a day , you know that the run fits were unbelievably unsound , like it wasn't even close like that . Photo techniques crash and A.J. , a true nine techniques crashing into Mike is filling the same gap . There's no Spiller . And I'm like , We got no spiller and the running back cook just bounces the shit outside . Yeah . I mean , look at that shit that's like , that doesn't happen . That doesn't happen in the NFL too much . And I talked about it a little bit earlier on the show . It's like a chain reaction , linebackers trying to make up for the D-line being out of place and then the safeties trying to make up for the linebackers . And then it's hard to ever get it back on the same page , which they did . And look at that right there , A.J. look at that , right ? There are , you know , better than anybody . Look at if Dean , I mean , he's pass rushing a run game . Yeah , that's the that's the problem that he creates , that he creates that giant gap when you're so free , so warm . And that's it . He ain't wrong . Amen . And he's not fucking fighting it . But his theory that his pad level city like , I'm like , no , where the folks that like I'm guessing the Mike's getting smothered is the mike and smothered between those two . Oh , I'm in right there . Hell yeah . Yeah , and that's easy money , because the double team look at the double team like , holy fuck , they're allowing the double team to just get walk to the linebacker depth . Well , even if let's say that that Mike gets over top of those linemen , Dalvin Cook is going to run away from run to towards the sideline and you see our safety over there on a scholarship . I mean , yeah , it's not an easy tackle make . It makes the tackle there , which is unbelievable . I want to switch real quick . Coach JB So linking runways at USC out there right in your backyard . There's a lot of reports that people think Lincoln Riley is going to come in . This team's going to the playoffs next year . Guys are already flipping coming to USC . What are your thoughts ? This is what I think . Like , it's all good , everyone , the people that were following him to Oklahoma switched and followed them to see , that's kind of the norm , I think , nationally . But let's not forget , it's been two kids . It ain't 30 . And the thing is , it's easy to recruit L.A. kids to Oklahoma , Alabama , Clemson . It's easy to get L.A. kids out of L.A. right now . I want to see how he does with keeping L.A. talent in L.A. , which either school , UCLA or C has been able to do in the last six months . Will you explain why L.A. talent such a big deal and who all the motherfuckers out of L.A. are right now in the college football landscape ? Well , the Heisman winner is going to win the Heisman . He's from L.A. . I mean , the other guy , Stroud , he's from L.A. Clemson's quarterbacks from L.A. Fuckin Ole Miss , his quarterback who's up , you know , was an argument of the Heisman is from L.A. . I mean , shit that number one recruit in America is from . I mean , right now . So I don't know like , why are we losing the talent to other schools ? Is what's been the issue ? Because I think the SC and UCLA so bad . I believe that is the culture and in the demographic of not having your own stadium walking across , you know , like the historic landmark , like the Clemson or in Oklahoma and tap in something like Ohio State and walking into your arena . You got to get on a bus drive to fucking Pasadena . If you're UCLA 40 minutes sitting in traffic , maybe for an hour from Westwood and then SC , you got to walk around , you know , to the Coliseum at eight on your campus . It ain't far , but it ain't on your campus and it's a it's a it's a stadium that's used by everybody and their mom . An NFL team fucking concerts . I mean , it ain't your real , your own shit . And I think kids start to get tired of that . They start to lose . It starts going , is that we're drinking Kanye where last night I think that would be something that would sell . I don't know . I don't listen either . One of them sucks . I don't . I don't know what the hell they're doing or what it was about . So it's all I don't know . Criminal justice reform . Hey , free , Larry over . They said they were having a concert to free Larry over and for criminal justice reform . I assume you're not . You're you're OK with that . Yeah , I'm I'm fine . I didn't know what it was . Or Let's move around college football a little bit here , OK ? Lincoln Riley goes to USC . How do you feel about Mario Cristobal to Miami with Manny and then both recruiting and Mario going back and spitting some Spanish in the press conference ? How are you doing ? It's great to be back . That feels like a perfect fit . The whole process , though , is so fucked . Yeah , I think Miami is being tabbed as probably one of the shady as universities in America

right now because of how they handle Manny Diaz firing . He's literally in a home of a recruit . And there's literally two head coaches at his university at the same time before he's fired . That's some shady shit , in my opinion . It is , but J.B. , didn't he take the temple job for like five days before he took the Miami job ? Yes , he did . But what I'm saying is , though , he told Temple , I was leaving . I'm the first one on my show to say that was a shitty deal because I had two kids going to temple when he got the job . And the next day he's at Miami , so I called him out for that . No doubt about it . But the university is what I'm talking about , not Manny here or Mario . I'm talking about how the university handled it . And then Oregon came out yesterday , if you didn't see the ad and call Miami out on how they handled and circumvented the process and went behind Oregon's back and reached out to Mario and Oregon made it a point . So you reached out to UCLA yesterday , I guess , and asked for permission to speak to Chip Kelly and all this . I think people are getting lost that this is a huge professional business now . It's not it's not amateurism anymore at once . The transfer portal created NFL free agency at the college level , in my opinion , and then the NFL . I mean , college coaches make an NFL coaching money . It's no longer a fucking amateur deal . This is professional football now , man , and these coaches are making this money . And I don't know , Pat . I equate it to everyone saying , Well , Mario can leave Oregon . So why can't all the kids just enter the transfer portal ? Because Mario has earned the right to make a salary and get his and make a right to earn a salary for his family and better his life , right ? Because he's earned that right , he's fucking 50 or whatever . I believe he's gone through the experiences of life and has earned the right to do so . These kids are 18 , 19 , 20 . Even though they're a so-called adults , they haven't earned the right . They don't pay a mortgage , really put a kid through college . They don't fucking know shit , so they need to shut the fuck up and stay put and compete . Conor , what does that take from you ? I never , never would have guessed that . Go ahead , A.J. Sorry , buddy Conner . What's up ? Yeah . Coach , baby . How do you feel about the Makdisi first win in the Lions ? And was it kind of similar to your first win in the locker room after ? You know , I don't know if I watched it . No , it wasn't similar to my first win at all , but you know , to me , Connor , I'm not be honest with you , man . A win and a loss to me . I traded at the dam , same unless we won that bowl or won the Championship . You know , Phuket's it's go time . Ready to get over . It's a Pete Carroll deal . Twenty four hour rule , it's over on to the next one . So my face never changed , win or lose . But when he started crying on the podium , I told you everybody he was going to fucking lose every game . OK ? They won a game . Kudos to him . I'm glad he won a game and got got him over the hump . And hey man , I I got to put my foot out of my mouth because I said I didn't think Detroit was going to play for him much longer . After the crybaby thing . But they're playing for him . They are playing hard for the guy . I mean , but they're also playing for paychecks in the NFL . But I do believe they're playing hard for the guy and the way they interacted with them after that win . You could tell they're there with them . It's not like they're just standoffish from the guy . Diggs , when he got J.B. , you know , a lot of coaches , obviously in the college landscape . Are you surprised or do you know why none of Brian Kelley's assistants or guys that he's been with for a long time ? A lot of them stayed at Notre Dame . A lot of them decided not to go with him down to LSU . A lot of people from LSU or potentially going other places . Any idea where that's going on ? Well , first of all , he fired a like a LSU legend like a couple of days ago , and that guy end up getting a job at Florida right away . But whose like strength coach or something ? Now I think he's a running back coach . He's a great guy . He was great . No , not at fault . Not thought . It's the DB coach , I want to say , because he didn't retain fault either . But Kevin Falck , not Marshall , but they they he didn't retain him . And I guess a bunch of people came out and was bashing him for it because of guys like second , LSU's through and through played there has kids that played . They're all kind of shit . And then he hired Wilson , who was the head coach at McNeese State , who basically just signed the class and then just quit on them and took the job , took the running back job at LSU . He's he's known as a go getter . He's from Louisiana , so he left in efcc's head job to go be a running back coach at LSU , which makes sense . I mean , he's going to make fucking triple a salary as a position guy , but I don't know , man . You know , it's they're pissed off at him . And I think it's just like the Nick Saban deal when he got on the plane to go to mis for Michigan State to LSU , nobody got on the plane with them . It's very similar . I don't know if you guys saw the report . I don't know if you guys know who Coach Graham is . He's now the head coach at a why he was at Tulsa , Arizona State that you places . Kids have came out now calling him , you know , basically a drill sergeant , and he calls them shit birds and calls them this and then dog pieces of dog shit and all this . And it's like , OK , man , we it's like , Fuck , everybody just wants to get the guy fired . Everybody wants to get everybody fired . Now , I've never heard one good thing about Graham , never Hastings . He wears the little the little mouthpiece or the little headset didn't hear . Yes . Yes , yes . The Britney Spears thing she used to have . Yeah , yeah , the Britney Spears of coaches . Hey , Ty has something for you , but he's also the full metal jacket . A coach ? Yeah . Yeah . Yeah , yeah . Coach JB Joe Brady getting fired in Carolina . He obviously was getting , you know , I mean , we had someone on who said he got five NFL coaching interviews . He had the unbelievable offense with Joe Burrow at LSU . Do you think he'll be a guy who will get one of these big time college football jobs maybe before the start of next season ? Or what do you think he's going to do next ? Oh , absolutely , he'll get it , and he's undeserving as fuck . Like , say , it's unbelievable , man . These guys get these guys , appoint these guys , or anoint these guys as the next best thing . First of all , Brady was the co-host C at LSU with the most loaded roster in the nation . OK , let's go there first . He had one good year . He gets hired by a guy who's also very inexperienced at the NFL level . I blame the ownership because the owner hired an inexperienced NFL coach who there goes and hires an inexperienced coordinator . And now you wonder why that thing's imploding . So now the coordinator gets fired first . Of course , shit rolls downhill . And now , now you're hearing the matt rule is going to be fired . So , you know , I don't know it having your deal right with a seven year deal is not real . Is he really ? They really threatened that they may fired Matt Rhule heard I've heard stories , man . I've heard stories . And you know what rules a good dude , man . I've had good conversations with them when he was at Temple and different places . He recruited a running back for me . And we've had good conversation and I'm not ill will against the guy . He's a good dude , I think , but I go back to results oriented . You're a you're a rookie NFL guy who makes rookie decisions on hiring a guy because he's that he's a one hit hit a quitter . He had one hit a quitter , which he was a cosy pass game coordinator . And now he's tabbed as this great guru . He's never been a head coach . Brady looks like the fucking kid from The Brady Bunch . Is it the media ? No . Jamie Dimon in a locker room . Do you blame the media ? Is this the media that pumped him up makes them like , like their superhero media ? Fucking agents get involved . You guys know agents talk to agents , they are tied in together , and those agents make power moves with each other and they keep the fraternity in the tight circle . They keep that circle tight . And you know , it's hard to get in that circle once you're not in it . Like if you're out of that circle , it's hard to get in there and he's in there right now , and I wouldn't be shocked if he gets organ or what if he's good . Do you think there's any chance of him being good ? Like , for instance , Kliff Kingsbury like genuine when shit right in college . But he has become a great NFL head coach now , he said today or yesterday , like coach of the year Bill Belichick , every fucking year , Bill Belichick . So what are we even doing here ? And he used to play for the Patriots , but I think he wasn't like that . It was it because you think he learned how to command the team or like , do you think he got a little bit more diligent in the scheduling ? Like , how do you think guys go and get better ? Oh , it's real simple . How why wasn't he a great fucking coach when they had no , they when they had fucking Josh Rosen ? Well , now he's a great

coach . He got fucking J.J. Watt . He got lucky . But then Connor came back , You got fucking the defensive line . He got players . That motherfucker ain't no different . He got players in the same city fucking coach . He was in college . Well , I'm just telling you , he's another guy that let him out . Really ? Hey , J.B. , what do you think , coach Mike McCarthy ? It wasn't like a big , bold guarantee that we're going to win , but he did say that we're going to win this game . Do you have an issue with that ? Where are you at the snooty fox ? Well , I am in . I slept with Cardboard last night , Jimi . All right . I got a little box in my pants right now , probably the still the snooty fox is like a whole roll stroll motel in L.A. that got a big ole hertsmere on the roof . So you can see , you know , yourself fucking I'm not it . OK , and I'm not . I'm not at the what's that other one ? The the the documentary one oh , S.S. Cecil Hotel by Cecil . Some legendary places , for sure . I am in L.A. Quick stop , though it's this weather's gorgeous , though , J.B. I mean , it's out here , man . It's fucking pissing me off . What ? During a drought , you see , I'm an hour east of you right now , so I'm it's been raining out here . Rain has been raining for three days out here , man , nothing but sunshine over here , and we deliver and it's all here and looks . It looks like it . I see it coming off , reflecting off your face . Oh no , no , no JP , they deliver it right to the door . It's the , you know , I'm not going to ever call out the wheat . I'm talking about the sun reflecting off your face . Right now I can see sunlight and I'm looking at a flat in cloudy Kansas weather . Well , AJ is back there in Indiana , and I don't know , I'm out there , but I assume the weather's terrible . Yeah , it's been raining . Yeah . Hey , AJ looks pretty slick , man show . Oh , oh , oh oh , you don't interview Doug . Every is an air view . Fangio might be calling your mother JB Army-Navy , who's going to win a question about McCarthy ? You know , I think he was just doing something for himself on that one . I think he was doing it to hype himself up and get the kid , get the guys kind of like , All right , I'm I need you guys to step up for me right now because people don't think I can call a game as a head coach . And I'm I need to fucking get you guys to back me and , you know , let's quarterback back them at least . So , yeah , you know , I think everybody else will follow here . Yeah . It's a message to the team , I think the team loves that they probably see Mike McCarthy in their team meetings and they love it , and then Mike does , I think I don't think he loves doing media stuff , so I think he sometimes goes into this cliché coach speak whatever . How come he hasn't been on this show ? A.J. Why has he been on the show ? Let's ask him . Go ahead . OK . You play for calm right now . We need to ask you , have you guys ever asked Aaron about what he thinks of them after taking all this heat from the Cowboys ? Yeah , yeah . Aaron talks about Mike a lot , and he references him a lot . Like for a lot of guys like me , I've heard great . I've heard that he's a fucking genius . Like all of these people are talking about this shit , but I'm sure Aaron knows I've heard the guy knows that shit , obviously , and especially on the offensive side . So you wonder , you know , if the if the Cowboys have another shitty ass performance like the other last couple weeks , if that motherfucker down starts calling the games again ? Well , I mean , let's see what happens , he kind of really wants me to ask you about the Army Navy game . JB , what are your thoughts on that ? Who's going to win that sucker ? Yeah , that's the only game I got written down here . Man Army's favorite by seven . They're eight and three . You know , Kenny over Polynesian head coach over Navy . Good dude . Man is having a rough season three and eight and coach Miyamoto Lolo . Yes , all the cadets , huh ? Coach DeMatha Lolo . There you go . So I don't want to fuck it up . So hey , I got army mother and a seven man . I got army went in that one and it's going to be , you know , I think they're all going to break out some new uniform and shit like they do every year . Hey , let me ask you guys this back to Pat's question . I didn't answer all the way . Mario leaving Oregon . So Chip Kelly goes to the NFL . Oregon has Phil Knight and Nike . Yup . So they got a million and 16 uniform combinations with the helmets to match . They have the best facilities in America . They just they're putting in brand new facilities . So why the fuck is the coaches leaving every single time for a lateral position or even a lesser job ? Oh , because the PAC 12's dad , Willie Taggart goes to Florida State , which was the beginning of his demise right now , you got Mario leaving Oregon and going to Miami , who Miami has intramural facilities , by the way . Have you ever been there ? They're bad . They have an upgrade in a while . No , they're bad , man . Miami is a way to make sure a baseball field with like half of the football field , like , it's a lot of shit going on there . That's not very great . Now they're upgrading some shit out here , but I've been there one time . It wasn't very good . And I'm just like , why are people even maybe green organs ? Not as green as they know ? It's because , hey , J.B. , it's been . You may be just thinking this and this might not be right , but PAC 12's been dead , dude . Maxwell is fucking dead . If USC comes back . I think that Oregon job gets even more like desirable . You know what I mean ? I think just the PAC 12 being completely dead for some time is the reasoning for that . Maybe , I don't know . Yeah , I posted it on Twitter . I posted the facilities and I asked the , you know , is it really that maybe it's not as green as everyone says ? Everyone's like , Have you ever been to Eugene ? And I'm like , Yeah , but rains , I get it . But it's not fucking Alaska . I it's my call . Do like , you're a fucking hour and a half flight from L.A. You're on the Pacific Northwest . Like you have the facilities at fucking Nike . Like , Come on , man , I don't know . I just like , you're getting paid pretty good money . You can recruit everybody . They killed L.A. and recruiting like they got the number one player in the country , Tepito , who declared for the draft . I mean , he'll be the number one or two being taken . I don't know , man . Shout out to Jermaine Johnson , by the way . My former kid got at it ACC Player of the Year and first team all-American yesterday , so he was a guy that shied away from the camera . He never really wanted to be on the on the camera , and he did his dang man , so he bet on himself . He drafted pretty good . J.B. Last thing for me , like so Phil Knight in Nike , he basically makes Oregon like he's a huge reason why they have had success in all of their sports because they have unbelievable facilities . They have a billion different uniforms that like , entice these kids . Isn't there any other billionaires out there that can go and try to juice their university up and do what he did to Oregon ? Under Armour Guy did it , and he started trying to get it . What happens is once the Under Armour guy starts to spread out , then and then you get UCLA and then you get all these schools now buying your shit . I don't think you can focus on one school . Phil Knight's done it better than anybody , in my opinion , because he's still Oregon through and through . He's worn throughout the nation , and it was funny I saw D , but he posted a thing like Miami better get out of that Adidas shit and get into Nike . And I'm like , Dude , it ain't happening . I don't give a shit sit bug in Miami now . Oh yeah , you heard that right ? Mario had a contract on his desk before the PAC 12 title game against Utah and got fucking drug through the mud by Utah , and he didn't sign it . It was like a ten year deal or whatever . And and Phil Knight sitting there like , OK , motherfucker . So I think that's kind of been a bridge , in my opinion . I wouldn't want to Chip Kelly . Chip Kelly and he had a good relationship , so he's like , Give me a fucking chip Kelly back here . He'll respect the fact that I got a waffle maker and I put some shoes on . Now we're still here . Hey , yeah , yeah . I'm curious , though , like , what's your take on ? How does Phil ? How does Chip do well at Oregon ? And by the way , he inherited a Mike Bellotti or , you know , structured program , which is already pretty legit . But but Chip took it to the next level , got him in the natty and and then he's been dog shit ever since . I'm just saying he what he was talking about getting fired at UCLA . You're in L.A. like , you can't win at UCLA . I don't know , man . I just think the people that have left Oregon , it has started their demise at the beginning of their demise , and they've been shitty ever since they left Oregon . Like I'd say in Oregon , if I was one of these motherfuckers , it's got to be tough . I would imagine going from Oregon where you have everything at your disposal . There's probably , you know , blank checks for everything . And then you go to other places like , Hey , there's actually like a budget here and you have to abide by this . You can't just go buy everything you want . And what do you know ? What do you know about the Oregon budget

? What Phil just has to sign off on everything or they have an unlimited budget ? What is it not ? There's still legalities like NCAA still has to . Yeah , there's still a bunch of the infrastructure and legalities that the university athletic departments have to go through . You know , they get donors and shit that they need . You know , Phil Knight , I'm sure , needs a million fucking write offs , so he's going to have to send money over there . But I don't think it's tough to go through and get approved by PAC 12 NCAA . It's not so good , like for the with the . Name , image , likeness , stuff like a lot of these Nike deals and shit that you get in the NFL , it's just like you get gear . Basically , they can basically do that right ? They get them a Nike Gold or Nike , whatever that is . Website log in and every kid can get like fifteen hundred bucks , which is like three three shirts . Yeah , yeah . Like fifteen hundred bucks worth like Nike . You're right . That's something that they could easily add to the whole fucking thing , right ? I think so . Yeah , but but look it there's only how about the Uighurs or whatever his name is , kid ? You asked me about a couple weeks ago , this guy made a million dollars in Nike , Ohio State . He's a third string quarterback . Yeah , he made him . He had a million . He got a million dollar deal at Ohio State . He's a third string quarterback that enters the portal and goes to Texas with Sark now . And like , I'm like , he was a high school kid like left early and you go and enter the portal . Get it , Nigel thing . But how ? How hard must it be , AJ to ask you ? How hard must it be for a coach to address a team where maybe one or two guys are getting initials and the backup left tackle the backup corner and a backup quarterback and looking at you yell at the team , they're like , Well , it's like this guy is making money . I don't make shit . I got a fucking fast for Zach . Yeah , I mean , it's a real thing . We'll see . I think as time goes , how that plays out . But the 10 years thing he he left high school early to come to get , basically , hey , I can get paid and hopefully it works out here and if not , I can go somewhere else . Like you said , I think so . He's committed to Texas now . Is that what it was ? The rumor ? Yeah , I guess that's all I hear . I tell you when I'm watching that tape , there wasn't any slinging . I've created a NFL free agency thing . But the problem is the other team's not getting a trade back like the NFL . So you can basically just enter and leave and go anywhere you want , but you're not getting anything in return . There's thirty one hundred kids , I think , in the portal right now for football alone . There's over ten thousand kids in college athletics in the portal of all sports . So like , come on , man , it's become it does work out sometimes . OJ Buga , Alabama's top receiver , came from Ohio State . Oh , right . Yeah . I mean , it happens and shit I I won . I won like 20 bucks on FanDuel last night . Do that . Shit happens to me . Blue looks like you know you didn't take the Super Bowl . Thank God for you . That's for sure . Because the Steelers , we're not lost because we even had a bet on the fucking thing kind of AJ . Thirty one hundred in the portal , they'll be like one hundred and ten kids . Cooped up . Oh , yeah . I don't know how it's going to play , that is a that it's tough . It adds a whole new thing to coaching , which I don't know how people coach in college with recruiting and all that . Well , where's everybody else going juco ? No , there's juegos being killed . What do you just stay then ? A lot of teams just go to the on that . Well , I guess I'm not going anywhere . The portal the portal is now like the Alabama of transferring . It's like you're in , you're in Alabama , but you're really in a fucking cloud sitting there thinking you're going to go to Alabama or Clemson or wherever you're not going . There's only one Alabama . There's only 120 . Seventy one . How many kids you think they're taking ? They're only taking the select kid and they don't have school . They're not in a school or anything . When they're in Florida , what are they ? They're just hanging out at home now . They're just sitting there . Yeah . And so what's happening is now JUCO , getting affected in high school is actually getting affected in a great way because high school kids aren't being recruited as much and either as JUCO in the same manner because the transfer portal kid is sitting there and it's an adult thing , man . I don't know if you . It's an it's a grown folk problem . We're giving out trophies to every participation . You know , we're giving out participation trophies a but it starts with the grown up because a Nevada O lineman entered the portal last week and 70 coaches contacted them within 10 minutes . Seventy D1 coaches contacted Innovator O linemen like he's as average as fuck right . It's got to feel good for that . Can be counted , right ? Seventy coaches offered Nevada's own linemen , like in 10 minutes in the portal . They said the portal boom because they got coaches just monitoring the portal . Yeah , so boom , we call this guy . Well , you're the reason everyone is entering the portal . Stop calling these motherfuckers make them fucking stay home and compete , like quit offering them another scholarship . Like , I don't know , man , it's crazy . These kids are just jumping around like crazy . I get their circumstances . I get that like I can see , you know , a coach tells you in your home , in front of your mama , I'm going to do X , Y and Z , and then you get to campus and that motherfucker took the Miami job . I can see . Fuck you . You lied to me , right ? That's a in my opinion . You're a piece of shit you shouldn't be coaching , in my opinion . But anyway , let's be honest , in the household with the kid , at least . Hey , man , if if , if my dream job does come open , yes , I am taking it mom and dad and I used to do it all the time and I still get the kid they used to ask me ped all the time , kids , parents . After the first year , I'm in a home recruiting . They're like , Hey man , now you're famous and shit . I'm like , Man , I ain't no fucking famous . I'm the same motherfucker . He's like , But what if he calls you ? I'm like , What do they do ? Would you go ? Yes . And they look at me like , Oh , everyone else says , no , I'm like , No , yes , I'm going back to a home in L.A. to USC and leaving a town of nine people in Kansas , motherfucker . Yes , I am . But I'll tell you this . The place he's coming is a better place than what it was when I got here . And this is still the best option for this guy , for your kid . And the odds of me leaving are one percent . And these coaches got to be honest with the man , and they're not . They're lying to him is what makes it worse . And that's what makes kids fight spiteful and enter the portal on a higher level to which I understand . But also the kidneys are in there , right ? Well , I think to J.B. , that's where you can lie to him . You can say , Well , if I get that , yes , I'm going to SC and I will do everything in my power to bring you with me , buddy , you're going to play USC . You can't wait for that one . A Trojan man played into that is that is that is the thing coaches do , too . But at the same time , they don't get the job and then they end up losing the kid all the way around . They don't get him at Oklahoma either . You know , I mean , so it's kind of a double edged sword . You got to be careful because they had their first show , money . Look , no money ended up with Oh my , oh my perfect , you're you're a lot more politically correct than me because when we were young , we used to call it , You run against and fizzle pussy or no . But I think that's anything , you know , you can apply that same line to many other things . No doubt you can be applicable . JB , appreciate your man word today . We're going to get to our first break here this hour . But JB , thank you so much , man . Appreciate your time , your perspective on everything . I did a great video to yesterday . For Pat , I thought that was awesome . Yeah , cool . Very . You must must love you guys , man . I appreciate that . See you next week . All right , ladies and gentlemen , thank you , coach JB . Back to show Pat McAfee is out there in L.A. joining us . I can't lift my arms out with my jacket . That's the one problem real , real limited on where you can do it . I am not like Gronk right now . I do not have a big catch radius when I wear this jacket . But you know what we can , we can figure it out . What do you want ? Ask Lombardi about Pat whenever he gets on here . I'm going to thank you . I'm a fan . Colombo a little bit , you know , and then I'll let you kind of guide the conversation where you want to go . I mean , the Patriots chatter is up real . Joe Brady conversation Yeah , it's real because he has a Sunday coach down there , but I asked him for some advice before the first negotiation and it was fucking powerful . It was powerful . What he told me always is , is I fucking love Lombardi . Can you tell us , can you tell us what he told you ? I'll wait until I don't know if he like . Yeah , because he does a lot of speaking . I don't want to take his . I mean , I want to take kids like you . I think he's actually down in Texas doing a speaking gig for ExxonMobil or something like that . He just did . Can I sign up to speak for Exxon Mobil ? They got plenty of cash to pay you . I know they probably could , but you charge 20 to \$30000 . Oh yeah , that's right . So what happened ? What happened ? If you want to go like , speak you ? Hey , come have A.J. Hawk speak to the company you're charging 20 to 30 . Okay , to do that . So it was on the internet , on the internet screenshot . First of all , I haven't seen that , and it's a complete lie because I would definitely charge more than that . I'm just like , you know , right now I do . Gave speeches and I would not go down there . I'm not saying anything . I just only do it if you well , I'm only going to do it if it's too good to tell you that , that's what I'm saying is the only way I'm leaving . Hey , those speeches , the companies are terrible . Making the most of them are terrible . I'm saying you can make them fine . You can make them good , though , when Wembley . Hold on , Pat . Hold your hold your thought there because he's on the line . So let's let's bring him on here . The guy who I think just got done with the speaking gig knows that in in and out , he writes books . He's amazing . Ladies and gentlemen , Michael and Buddy . I apologize for the back camera angle here . I got it fixed . OK . We go . You look good . The good news is you always look good . I can't hear you . You speaking for the big oil companies down there , Lombardi . You know , I don't know . It just was . It was one of those things that kind of fell in my lap , but I thought it was a pretty good opportunity for me to do it . So I took full advantage of it . You're probably I mean , I watched your TED talk . It's awesome . It's fucking amazing . Obviously , your daily coach . I read that . It's incredible . You have a way with words and you've been in a position of power and leadership that only few have in the past and have gone through negotiations in big time money conversations that not a lot of people know about and have been a part of programs and a all of people know about . When you gave me that piece of information going into my first negotiation , I can't thank you enough for that . I mean , that was fucking awesome . That was you changed my entire mindset . Well , I think often times we we always think negotiations , we've been treated as if , you know , we're in the ones at the disadvantage . And when you have something to offer , you have an advantage . And I think your specialty certainly does . And you know , it's like a player . You could never overpay a great player . You could always overpay a mediocre player . You could just never overpay a great player and you in a no go situation . If you're a great player , you got to think that way . And I think certainly you do . It was awesome . But you also I don't want to give away too much of your business sense for free to people like you told me . You said , Hey , if they counter , they're saying that your numbers are wrong . And that was like , that was like , that was a complete mind set changer for me . It was like , they're saying that your numbers are wrong if they counter to you , just something to think about and remember that and that's going to happen in every negotiation ship . Yeah , I think when would you put a number out there , especially considering that you're doing it so far in advance that you know you'd give it thought and like a player comes to you and says , Hey , I want this . The market is pretty well set . You know what the market is . And so , you know , and you're and you're a remember time equals money . So would you sign a contract before your contract is up ? You're giving it , you're basically given a discount . So there's got to be a little bit of a value added to that . So I'm I'm extremely happy . I don't think I helped you very much . I think it was all you , but I am extremely happy to be a part of it . It was awesome , A.J. . Sorry about that . That is awesome . But also you want to negotiate when things are going well , too . That helps a lot . Things are always going well for you right now for show money , no money . You know ? No money . Yeah , exactly . There's a potential couple of things there , you know , you got away . I'm first going to prison . Sorry , go ahead . I'm here to help whatever you need . You know , I'll always help you heal that . It's my pleasure . I think it's I think it's good . And then what you did for charity , I think is really incredible because , you know , like it's like when they when when they'll told Tony Soprano , you know , you can't get all the revenue , all the but you get you can't have it . All right ? And I thought that was just so generous on your part to be able to come and give back to people that need it . I think that's really touching . And I think we as a society , especially around Christmas time , we need to understand that the gifts aren't for us and for others . Great , man . That's very nice of you . Thank you . That's very , very nice and real . Go ahead . That's awesome . And pivoting . Lombardi , what do you think last night you watched the game ? What are your thoughts ? I know people feel very strong about the Chase Claypool . When he he converts the fourth down , would they have gotten another play if he would have ran that ball to the official ? What are your thoughts in the game ? I was cursing Mike Tom . I was cursing Mike Zimmer for not running the ball on that last third down . He had like he cost himself all that time . You know , and so for me , you know , that was one of the biggest mistakes in the game . You could pick on Claypool , but I thought that Zimmer really his mismanagement at the end of the game was really a problem . And he looks like Al Capone when he gets back . Yeah . Rob , over here . Oh no . We're at the banquet table with Al Capone . I'm not Italian . I'm not Italian . Like Pat claims to be , you know , Claypool is going to grow up like , there's no time to celebrate is the time to win the game . And I've never seen a team as lucky . In the fourth quarter as Pittsburgh . They came back against the Chargers . I mean , they had the ball all the time in the fourth quarter . They made that miraculous comeback . And then last night they had no business being in the game . I mean , how does cousins throw that slant for an interception ? Like , how do you make some opponent ? Isn't the other team , it's the clock , it's the clock . Yeah , and the situation will call for it , right ? And I think that's a big deal that some people don't understand and some people do . And I think that , you know , that organization , a dynasty that you were a part of up there in New England always had the game manager . You're doing great . The game management situations all figured out , all the situational football . Was I going to get A's ? Were you ? And I wanted to talk to you immediately after the game on Monday ? And we're getting you now because you've been very busy and we appreciate and respect the hell out of that . We all knew Belichick was going to win that game , right ? I mean , as soon as that weather was at thirty five miles an hour , you know , Bill's going to give you the Bill Belichick wins . Well , let me give you a little background . So they practiced on Friday in the bad weather , right ? Mac Jones threw one incomplection and 30 mile an hour wind in the bad weather . Literally , he threw one incomplection completion practice in the bad weather . It was thirty five mile an hour howling when he threw one . So you say , Well , why did he throw it in the game

? Well , I think what happens in that game ? And Pat , you pointed in that place before , you know , and you're not on the field , you don't know the wind is coming sideways . I don't know how much you played in that state , but the wind direction is changing on a continual basis in that stadium . I know the TV people kept saying the wind's going left to right , but there were taught feel that it wasn't in that game . McCourty was calling the defenses of swirling wind . In fact , when Jesse Jackson and Mills made that play near the bench over on the Buffalo sideline , that was all McCourty . McCourty checked into the play , which McCourty checked into the defense , which ruled the coverage , which almost gave him an interception . And that was all predicated by the wind that wasn't predicated by the call in the huddle that was predicated by the side wind . So the side wind was really the factor in the game . The wind coming right to left was important , but that side made it so hard . And I think if you're a Buffalo fan , you got the ball first and goal at the six , you got to run Josh out four times . You got to run Josh Allen four times . You can't waste it there . You've got to try to put the ball in his hands four times . So I think the way they played the game was , look , everybody says Belichick should have run the ball , throw the ball . They are kind of running the ball . They averaged more per play running throw running than they did throw one of the need to throw it . They felt like if they throw it , something happens . And I don't think we understood how much the wind was a factor in the swirling this inside the stadium . Lombardi , can you explain a little bit when you said McCourty was calling the defense , depending on the wind a side to side win ? Like what exactly is he doing there ? So they were rolling the coverage to the where that where the only side of the field you could throw the ball to . So they knew where he knows , like when there's no chance he can throw over here . So we're going to roll the coverage over here . Wind's blowing on this series . He's got to throw the ball over here because if he throws it to the other side , he's never going to catch it , but he can't control it . In fact , in pregame , they decided that unless the ball was inside the 10 in the in the open end of the stadium , not we're not with the locker rooms . On the other end , they would even try a field goal . They there's no way . For Nick , Falk told him and said , you have to almost aim at 20 yards outside to be able to bring it in , so when he tried that field goal , nobody on their bench thought he was going to make it . They all thought it was going to be a bad year . Do you think Buffalo was rolling their coverages as well ? Oh , you think Buffalo was rolling their coverages as well ? Do you think that is the difference ? I think Buffalo was hanging on for dear life . Their buffalo was not a big team . Matt Milano played safety in college . Ed Oliver is not a big . They're not a big team . You know , the first play , the first third down of the game . When Nigeria drops that pitch , that's a touchdown . You go and watch it on tape . Trump rounds out , they're going to block the corner , you're going to run it to the end zone . I mean , they just out executed him in a game that they needed and execute him , and he shot . And Bill loves it , right ? Oh , fuck that shit . He loves it . There's no better line than when he tells the team , get your stuff on and get outside . There's no better . Just get your ass on and get outside like he could care less with the West . In fact , I think he enjoys it . It probably it keeps him from getting bored . I would imagine . I'm sure he doesn't get bored , but hey , anything new to your routine , your plan that changes up ? It's got to be kind of invigorating for him . I think one of the sins of of of losing toughness in your team is these indoor facilities . Oh , there it is . All right . Oh , we got to run perfect plays . We got to have the ball . Can't touch the ground . Yeah . Matt out there on Friday and 30 to 35 . Now hold on the indoor practice facility . We practice outside all the time off despite the extra reps . You know , the extra reps that you can get in whenever you're not in the middle of reps for mental toughness . Win games , reps , mental games . Quick , let's . Yeah , I've seen that . All right . Let's talk about I don't want to get hit with a bad either . Let's talk about the other Lombardi , Joe Brady . Yeah , down there with down in Carolina , it was this . Yeah , I think this came out of nowhere for a lot of us , I guess . There was no real reaction afterwards from anybody on the team . So I guess this was kind of expected . And yeah , I think I think that the two of them , I think Matt Rhule had an idea of offense . I think Joe Brady had an idea of offense . I'm not sure they were aligned all the time . I think how they get hired , then I think it became really hard for that . And I think that they're an evolving offense . And when you're an evolving offense , you've got to be adaptive . And I think Brady kind of wanted to run what he runs , you know , and that's kind of his expertise . And I think they needed to evolve their offense , and I think that was probably the biggest issue . And look , you know , rule rule , it took guts to do it . I mean , they both have the same agent . Trace Armstrong represents both Matt Rhule and Joe Brady . So I think for Joe Brady , it's a great lesson learned . And I think for Rhule , it's an opportunity for him to put an identity into his office that he desperately needs . BOSTON Connor , would you go ? Yeah , Michael is Belichick . You know , it's terrible enough where he actually wears the navy mask before running the ball damn near every play . Like , does he do that on purpose ? And also , now that Mac has turned out to be as good as he is , do you see him leaving the game any time before the Mac Jones era is over in New England ? I think they're having so much fun up there right now . I think they like their team . I think their team is just really a bunch of good guys . And Pat , you got , you know , this , A.J. You know , this one you got when you have a team that everybody likes one another . It becomes a much , oh yeah , there's a camaraderie that's built within that locker room and you can feel it . I mean , that would be a hard game when they play Indianapolis this week , next week . But there's a sense of mental and physical toughness . I think he's really enjoying it . And look . Mac Jones is only going to get better . Much to all the Mac Jones haters that are out there . Mac Jones is only going to get better . Absolutely , Ty . Michael , when you look at the NFC West like the Cardinals , I know you've talked about like you're finally a believer in them . What about the Rams ? Like , I mean , is there any hope that this team is going to make a deep playoff run ? Well , every every time we see the Rams , they always put that start up with Sean McVay leading at halftime . His record is X . We never see when Sean McVay is losing at half time . Right ? All right . So I team where I really believe this and you guys can disagree . I think Matthew Stafford has been such an easy solution for them . They've lost their identity on offense now . Last week , they got it back with Sonny Michel running the football , but they got to get more physical . Their offensive line isn't good enough to pass protect 50 plays . Matthew Stafford will get killed , and they protected Goff by running , play action and running the ball because they knew Goff couldn't throw drop back to . But now Stafford can throw drop back passes , they've kind of lowered themselves into this trap where they think they can solve all the problems , and I don't think he can . They've got to get more physically tough and then defensively . I mean , they've got three great players , but I think they have a hard time stopping anybody . You don't have to throw the ball , Jalen Ramsey side . You can throw it to the other side . Diggs has some a second , but nobody can you get more physically tough in the middle of the year ? I don't think you can . I don't think you can . I think it's hard . I think you've got to go outside and practice you to stay out of that bubble . Yeah , you heard that , Pat . What do you got ? Did law foster practice for rat larva ? There was a report , I believe . Yes , sir . Or something like that . How true it is . But the conversation that Russ would potentially Russell Wilson would potentially waive his no trade clause for the Giants , the Broncos . And there was a third team . Do you think it's time that they do potentially blow it up in Seattle ? Well , I mean , I don't know . Pete Carroll talked about the Jamal Adams trade like it was beneficial for him . Like , seriously , Jamal , you paid him 16 million . You're paying him like , you're paying him like a top line player and he doesn't impact the game . And you gave up to no one for Mike . I don't know how that was a good trade . Your defense is one of the 30 second and third defense . You're paying him all this money . I think they have to rebuild their team , but they have no assets to do it . If you trade away , if you trade away , Russ , I mean , if you try to where he was , how do you where are you going to get a quarterback from ? Who's your who's your answer ? Replace who you get . Are you trade for Jimmy Garoppolo or are you trained for Jared Goff ? I mean ,

what are you doing ? I don't know . I think it's a complicated issue for Seattle . And and I was told last week that I thought maybe Shane Waldron was forced down Russell's throat , but I think Russ really wanted Shane Wolford . I think that was his guy . So now I heard , Russ said , you know , he's willing to come back and play his career . I don't know if either side can get divorced . I don't think it's I think it's one of those where we're better off staying married . How about ? Which is fascinating . Look at it because Pete is getting older . Not that he's not going to be able to coach forever because he's in incredible shape . But a blow up would be insane over there . They're saying there's no good quarterbacks coming out of college or whatever . You know , Kenny Pickett is number one . They banned sliding , by the way , because of him . Boy to go Kenny . And maybe Kenny could face lighting , right ? Just face in his band . Yeah , Mark slotting fraud , sliding whatever the case seems to become a rule . That means you did something sweet . But where are any of these veteran quarterbacks going to actually move , you think ? Or is it all going to be a bunch of talk , all bark and no fucking bite ? Is this not a dog mentality or what is this ? Because I feel like we're going to get excited for a bunch of veteran quarterbacks to move , and it's not going to happen . It's a hard quarterback market . I mean , you still got the Sean's going to be out there and what happens with Tua ? Because to us play better in the last two weeks , do they make the trade is to become available ? You know , what happens with with all these other ones ? I mean , you know , you're sitting there , you're in the Andy Dalton business . Do you really want to be in that kind of business ? I don't think you do . So , you know , I mean , the college draft isn't going to be a solution for some of these teams . The Eagles have three no ones , right , and there may not be a quarterback to draft . They may have to continue on . And that's what shocked me . Why Gardner Minshew wasn't viewed as a better player than he was . I have no idea , because Gardner Minshew , to me , was a little bit less than Baker Mayfield . A little bit less . Not as good as Baker , but similar to Baker and what he could do now . I don't think Gardner can do it for six games , so I think it wears on his body . But I think Gardner has instincts like , you can't believe a last thing for me . Lombardi , what about Paul Brown ? What about the Browns ? And in Baker Mayfield ? Like what is their seat like ? What's it going to look like the rest of this year ? And then also , what do they do in the offseason ? Well , I mean , I don't know how I would pick up Baker's option and draft a quarterback . That's what I would do if I were to purchase in the first round . I would try to find one . You got to look , you can't replace one until you start looking right . You can't replace one or two . You start looking so they better start looking . They should have drafted one this year , made a couple of teams , and I think Baker's got it . Look , the Browns only score when they make big plays . They don't go where they move the ball down that even though they have a great runner and Nick Chubb , and he's fabulous . They've got to make big plays . Look at their score sheets , look at how many points they scored , 17 against Denver , 10 against Baltimore , you know , 10 against Pittsburgh . They don't score points unless they make big plays like the charger game or like when they played the Bengals and the Bengals turned it over , they don't score . So for Baltimore , even though their secondary speed up this week , Baltimore's got to make them make them work the ball down the field , and Baker got to prove he can throw a drop back pass game , something I don't think he's ever proven yet . Yeah , well , hey , it'll be fun to to watch it play out . And people in Cleveland , I don't know how they feel about Baker and the rest of the team right now , but in the body , I really appreciate you coming on here . Thank you so much for everything , and thanks for the advice you gave to Pat . Yeah , I did nothing for Pat . He's just be a nice to me . How did it all himself ? And you guys did it all ? Congratulations to every one of you , you guys . It's a team effort . That's the beautiful thing about it . You know the name on the . It is more important than the name on the back . That was my whole talk to ExxonMobil . The name on the front more important , the name on the back . The brand is more important than anything . Do you say , do your job , keep the valves closed and do your job ? Everybody just do your job . Just pay attention to your job . We're going to be great . Awesome . Hey , ladies gentlemen . Thanks , Michael , and thank you again . Oh .
